

Legacy Midtop Helmet Hardtop®

HMMWV (available for 2- and 4-door)

If you need additional cargo room our Midtop is the ideal solution.

This has been developed for operations involving expanded payload requirements. With 18.5 inches of additional cargo head room compared to our Standard top. The Midtop HHT is widely used as a Maintenance Contact or Supply Shop vehicle. The rear doors have a maximum cargo access opening of 51.5 inches by 59.82 inches.

✓ **Permanent Solution to Canvas**

✓ **Secured Cargo Space**

✓ **Ideal Cargo Area Size**

General Description

Our streamlined design features over 9" inches of additional driver/passenger headroom in comparison to OEM canvas tops. This extra space allows ample clearance for PPE and combat load equipment.

Our customers appreciate the weatherproof interior environment, with far superior protection vs. canvas soft tops from water and dust intrusion along with reduced road noise.

Our design allows for easy installation and removal. McClarin's simplistic mounting system uses a basic angle bracket system designed to allow rapid installation with minimal vehicle preparation. The Helmet Hardtop® has been designed to be mounted on the HMMWV at unit-level shops.

The rear access door is lockable and when our personnel doors are utilized, the complete HMMWV can be secured. To provide additional secured storage, we offer optional secured equipment side storage compartments accessible from the outside of the vehicle for either side of the HHT.

Specifications

Top Dimensions

Length:	122.5 inches
Width:	85 inches
Height:	50.5 inches
Weight:	480 lbs.
Interior clearance over Cargo Bed:	60 inches

Crated Dimensions

Length:	133.5 inches
Width:	91.5 inches

Custom Development

McClarin Composites' Military Products division provides custom solutions to satisfy new requirements emanating from new technologies and combat applications. OEM and prime defense contractors have called upon our engineers to design vehicle tops that protect a variety of systems used by Soldiers and Marines. McClarin's Military Products have previously been used in numerous programs including PROPHET, CESAS, CONDOR, TPCS, and BCOTM.

Custom Helmet Hardtops®

Custom engineered Helmet Hardtops® can be designed specifically for a program's unique requirements. Sensitive electronic equipment can be serviced and protected from rain, dust, and extreme conditions.
