

Legacy Standard Helmet Hardtop®

HMMWV (available for 2- and 4-door)

Convert your canvas top to a one-time permanent solution.

Our Standard Top is our most popular model of the Helmet Hardtops® (HHT) series with thousands in use by the Armed Forces today. In this configuration, the entire cargo area is covered, similar to a sport utility vehicle. Our Standard HHT is available in either 2- or 4-door configurations, with or without side storage compartments.

✓ **Permanent Solution to Canvas**

✓ **Secured Storage**

✓ **Maximum Headroom & Interior Space**

General Description

Our streamlined design features over 9" inches of additional driver/passenger headroom in comparison to OEM canvas tops. This extra space allows ample clearance for PPE and combat load equipment.

Our customers appreciate the weatherproof interior environment, with far superior protection vs. canvas soft tops from water and dust intrusion along with reduced road noise.

Our design allows for easy installation and removal. McClarin's simplistic mounting system uses a basic angle bracket system designed to allow rapid installation with minimal vehicle preparation. The Helmet Hardtop® has been designed to be mounted on the HMMWV at unit-level shops.

The rear access door is lockable and when our personnel doors are utilized, the complete HMMWV can be secured. To provide additional secured storage, we offer optional secured equipment side storage compartments accessible from the outside of the vehicle for either side of the HHT.

Specifications

Top Dimensions

Length:	122.5 inches
Width:	85 inches
Height:	32 inches
Weight:	417 lbs.

Crated Dimensions

Length:	133.5 inches

Custom Development

McClarin Composites' Military Products division provides custom solutions to satisfy new requirements emanating from new technologies and combat applications. OEM and prime defense contractors have called upon our engineers to design vehicle tops that protect a variety of systems used by Soldiers and Marines. McClarin's Military Products have previously been used in numerous programs including PROPHET, CESAS, CONDOR, TPCS, and BCOTM.

Custom Helmet Hardtops®

Custom engineered Helmet Hardtops® can be designed specifically for a program's unique requirements. Sensitive electronic equipment can be serviced and protected from rain, dust, and extreme conditions.

Typical Colors

	Desert Sand
	Olive Drab Green
	Woodland Camo

NSN: 28 Versions of this HHT are available with National Stock Numbers (NSNs)
